ADVANCED FACIALS

NEW Detox Facial \$ 85

NEW Detox Add-On 30

This facial is a “deep-pore clean out” to free blocked pores. It is also offered as an add-on service, when combined with any of our other facials. Focused on the face only, and not the neck or décolleté, a solution containing an active blend of lactic, salicylic and glycolic acids, penetrates pores to dissolve blackheads, prior to manual extraction. The skin is purified through the antibacterial properties of PCA correctives and serums.

NEW PCA Custom Facial 125

Ⓢ This versatile results-driven facial is customized for each individual, to compliment your peel regimen and/or achieve skin rejuvenation. Your esthetician will design a facial utilizing a vast array of PCA exfoliants, masks, serums, correctives and creams, to improve tone and achieve radiance in the skin.

TREATMENTS

NEW Eye & Lip Renewal \$ 40

A rejuvenating treatment to reduce fine lines, firm the eye area and plump the lips through collagen and peptides. Results are immediate.

Re-Vital Eyes 30

A treatment specifically created for the delicate and fragile eye area, to improve the skin's elasticity, and reduce fine lines.

Ultrasound 50

Through low-frequency vibration, sonic waves free blockages to deeply clean the pores, improve muscle tone, and increase collagen production. Also allows deep penetration of custom-blended serums to plump and hydrate the skin.
Offered only in conjunction with specific facials.

Purifying Back Treatment 80

This treatment is similar to a facial, and focused entirely on the back. Includes a thorough exfoliation and deep cleansing of the pores. An ideal service for avid exercisers, who are prone to breakouts on their back.

Microdermabrasion for the Face 100

For the Neck/Décolleté or Hands 50

Ⓢ This proven break-through in skin care addresses a variety of skin problems through the use of specialized dermatological equipment, in the hands of skilled estheticians. Abrasive crystals whirl across the skin, reducing age spots, fine lines, scars and acne.

Pumpkin Peel 30

This effective enzyme peel instantly exfoliates the skin, peeling the outermost layer and revealing a softer, younger complexion.

ADVANCED CORRECTIVE TREATMENTS

We now offer physician-formulated, chemical peels and correlating facials to correct specific problems in the skin: clogged pores, acne, pre-mature aging, hyper-pigmentation (age spots), or dry skin. Each treatment is finished with concentrated vitamin serums and complexes to nourish the skin.

NEW PCA Peels \$ 125
Introductory Offer: Receive your 4th PCA Peel at half price

These results-oriented chemical peels are customized to treat a variety of skin conditions using blends that can include TCA (Trichloroacetic Acid), Jesner, Retinol, lactic and salicylic acids, correctives and serums. Your esthetician will design a customized peel treatment to address your individual skin care needs, for your first and subsequent peel(s). 4-6 peels are typically recommended for best results.

Note: a complimentary, 15-minute consult is required prior to your first PCA Peel

NEW Oxygenating Treatment 125

For all skin types, and as an alternative to a peel, this treatment returns a glow to skin damaged by environmental stresses and for skin in need of controlling oil or blemishes. The skin is flushed with increased circulation, toxins are released, blocked pores are cleared and dead skin cells are whisked away.

NEW Beta Hydroxy Peel 85

Through enzyme and acid technology, this peel provides simultaneous actions to exfoliate and draw out impurities. Naturally-occurring salicylic acid and enzymes found in pumpkin and pumpkin wine, penetrate oil-filled pores and break down impactions, while also removing dead surface cells. The skin will feel smooth and have a healthy glow following the treatment.
